MADELEINE FLOYD

BY ULSTER WEAVERS

The beautiful art of British artist Madeleine Floyd celebrates the natural world and her illustrations and paintings have been published and collected around the world.

Madeleine has collaborated together with Ulster Weavers over many happy years to create some of our bestselling ranges that continue to delight with their elegance and timeless appeal.

With her sketchbook to hand Madeleine captures her subjects in pen and ink taking her drawings into the studio to create the designs that we know and love.

We are excited to present Madeleine's brand new on trend range of Tropical Birds that looks set to warm up our homes and keep the memory of holidays with us throughout the year.

MEET THE DESIGNERS

HELENA

Having studied fashion and design in the UK and USA Helena has worked for Ulster Weavers for 13 years.

Throughout this time, she has worked to create some of our most popular collections and on a variety of bespoke projects for our customers. Helena is a cat lover and enjoyed capturing cats at play and sleep in her Kitty Cats design and jungle animals and foliage in Menagerie.

Her favourite design is Lisbon Tiles for its beautiful soft colours and intricate patterns. Helena incorporates a variety of artistic techniques in her creations, such as Japanese brush stroke, watercolour and pattern design. Japanese watercolour influences can be seen in the painterly pottery depictions in the Teacups design.

A fashion and textile graduate from Northumbria University Jennie has been designing for Ulster Weavers for over 8 years.

Her inspiration for this year's designs come from the magic of the outdoors and her collection of vintage books with beautiful covers. This is prevalent through the packaging she designed for LoveOlli collections where each design has an enchanted quality.

Jennie worked on many of the new designs this year including Dreamed landscape, Cotswolds and Geo leaves, however her favourite design to work on was Monkey business, where she enjoyed researching different types of monkey's and depicting their mischievous personalities swinging between fruit trees and vines.

JENNIE

Hannah initially studied Illustration but always found herself drawn to textiles and surface design. After having studied for a degree at Ulster University, she began to perfect her method by working as a freelance illustrator and designing art walls for restaurant interiors throughout the UK and Ireland.

Inspired by the varying textures in nature, she enjoyed working on the Pot Plants design. She enjoyed working on the quirky and colourful print, making it a fun edition to the collection.

One of her favourite ranges is the Love Olli Rebrand. She loves how it has been completely refreshed with updated scents and beautiful new packaging. She also loves the new Mediterranean Plates design and the bright colours that remind her of trips to Italy.

HANNAH

MONA

Growing up on the West Coast of Ireland Mona was encouraged from a young age to design and draw. Her handwriting is recognisable by her use of traditional hand painting, mark making and sketching techniques.

Inspiration for her work comes from the ordinary and extraordinary and she is always on the lookout for new textures, colours and design influences. She studied fine art before specialising in textile design in G.M.I.T. Galway where she received a first-class honour.

Her designs this year focus on colour, maximalism and bringing joy into everyday items. Her Favourite design to work on this Year was Mediterranean plates. its uplifting colour palette and decorative aesthetic is an instant pick me up.
